## REMARKS

The figures of births and deaths shown in this statement for week ending the 11th February, 1956 relate to 239 towns with an estimated population of 35,425 thousands. The total number of towns is 313 and their population is 41,203 thousands. Thus 76% of the total number of towns representing 86% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 18,396 and 7,979 representing birth and death rates of 27.0 and 11.7 per thousand of population respectively.

(a) *States (Parts A & C).*—The data here relate to 203 towns with an estimated population of 29,792 thousands. Information about Ajmer could not be included. The total number of towns is 251 and their population is 33,402 thousands. Thus 81% of the total number of towns representing 89% of the total population is covered. The number of

births and deaths recorded in these towns were 16,194 and 6,891 representing birth rates and death rates of 28.3 and 12.0 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B).*—The data here relate to 36 towns with an estimated population of 5,633 thousands. The total number of towns is 62 and their population is 7,801 thousands. Thus 58% of the total number of towns representing 72% of the total population is covered. The number of births and deaths recorded in these towns were 22,02 and 1088 representing birth and death rates of 20.3 and 10.0 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
